

Terms and Conditions for TradingView Platform Access

Account Creation and Deposit Requirement

- A TradingView account will be created when a user deposits a minimum of \$500 into their AvaFutures account.
- By accessing TradingView through AvaFutures users will receive the CQG connection fee at no cost, provided the user meets a minimum trading activity of 20 lots over a three-calendar-month period.
- If a user subsequently meets the 20 lots minimum trading volume in the following month for the past three months, AvaFutures will automatically cover the \$10 CQG connection fee.

CQG charge if Activity Requirement is not met

- If a user fails to meet the 20 lots minimum trading volume within a three-calendar-month period, a recurring CQG connection fee of \$10 will be deducted from the users account balance at the end of the third month, and each subsequent month until the requirement is met.

Sufficient Balance Requirement

- To avoid deactivation of their TradingView account, users must maintain a minimum balance of \$10 in their AvaFutures account by the end of each month if they have not met the 20 lots trading volume requirement over the past three months.
- Failure to maintain this balance will result in the removal of TradingView access.

Unsubscribing from TradingView

- Users who wish to cancel their TradingView subscription may contact Customer Support for assistance or navigate to the "My Account" section under "Settings" to unsubscribe.

Company Rights

- AvaFutures reserves the right to modify the minimum deposit amount, adjust the free TradingView access period, or terminate any ongoing benefits related to the TradingView subscription at its sole discretion, with or without prior notice.

Payment Terms

- Payments for TradingView services are charged on a **calendar-month basis**.
- No refunds will be issued for any portion of the subscription fee, regardless of the cancellation date or service usage.
- By accessing TradingView through AvaFutures, you acknowledge and agree to these Terms and Conditions.
